- ✓ Kidney Failure
- ✓ Urinary Tract Infection
- ✓ Blood in Urine

Check Your Cat's Health Today!

Ideal for Aging & Overweight Cats

60 Second Testing

Easy to Use

Checking is caring. So CheckUp.

# CheckUp

A quick, simple and reliable testing method to give you an overall picture of your cat's wellness through at-home urine testing.

CheckUp can detect the most common issues among domestic cats including high glucose levels, kidney failure, urinary tract infection (UTI) and blood in the urine. By using CheckUp, you can detect a health condition in time to prevent health deterioration and improve your cat's lifespan.

**Don't wait!**  
Wellness exams are one of the best ways to monitor your cat's health and to catch common problems before it becomes too late.

## Do you know why cats hide their pain?

In fact, it is by nature. Before cats became domesticated animals, they were lone hunters. In order to survive, they would hide any pain so as not to appear weak to predators. This is why cats will rarely cry when in pain, making it difficult to notice if they need your help!

## In the Box

2 lbs (900 g) of hydrophobic litter

2 x identical testing strips

\*Repeat test with second strip if necessary

1 x sample collection vial

1 x sample collection pipette

## Benefits

Noninvasive and stress-free

100% natural and non-toxic

Biodegradable & recyclable

Obtain a clean, uncontaminated sample

On-the-spot test results for 4 conditions

Recommended by top veterinarians!

- Keep away from children.
- If one of the parameters tests positive, contact your veterinarian for further examination and treatment.

- Do not eat hydrophobic litter. Avoid contact with eyes.
- CheckUp should not replace a periodic visit to a veterinarian.

- For in vitro diagnostic use in animals only.
